

Overmountain Victory Trail Association Membership Form

The Overmountain Victory National Historic Trail is 330 miles long, with thirty miles of the original 1780 roadbed intact today. One of the OVTA's priorities is to protect and preserve those remaining roadbed remnants.

The OVTA's mission is to protect, preserve and interpret the route of the Overmountain Men to the Battle of Kings Mountain. We partner with communities, organizations and government agencies in the development of new walking trails, as well as protecting and preserving trail remnants and historic sites located on the trail.
