

# The 2018 March Schedule

**This is tentative and will be updated as I get the information. Updated 9/10/2018**

Following is a day-by-day schedule of the reenactment including a short description of each day's walk, logistics and planned activities. Last minute changes to the schedule will likely occur so please be patient when that happens.

There are 3 parts to this schedule. The first part is a simple daily schedule, the second is a detailed schedule (page 6), and the last part is a list of trails along the March corridor (page 23).

The OVTA is being called on to participate in many more community celebrations and school programming venues than in the past. As a result, much of the traditional road walking activities have been adjusted to meet those demands.

Trail walking information follows the detail schedule. This information is a work in progress and needs a lot of updating. Information for the updates is being collected.
